RESPONSE TO RESTRICTION

1. Applicant's election without traverse of the invention of Group I (claims 1-11) in the reply filed on 20 October 2004 is acknowledged.

2. Claims 12 and 13 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 20 October 2004.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

4. The application has been amended as follows:

In the claims:

Cancel claims 12 and 13.

Explanation for Examiner's Amendment

5. This application is in condition for allowance except for the presence of claims 12 and 13 directed to an invention non-

Art Unit: 3721

elected without traverse. Accordingly, claims 12 and 13 have been cancelled.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

REASONS FOR ALLOWANCE

7. The following is an examiner's statement of reasons for allowance.

The combination of steps set forth in claim 1 is allowable over the prior art. The prior art does not anticipate the claimed subject matter, and it would not have been obvious to one having ordinary skill in the art to have combined the teachings and suggestions of the prior art to arrive at the claimed subject matter. While it is old and well known to draw a vacuum on the contents of a bag, and it is old and well known to push on the contents of a bag, the prior art does not teach or suggest the combination of steps set forth in claim 1. No single reference discloses the step of "pushing the bedding

components toward the first end of the bag by applying a force at the second end of the bag". This "pushing" step, in combination with the remaining steps of claim 1 is particularly the feature of the claim which renders claim 1 allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
